

Research Students Handbook

QUICK LINKS: [E-Newsletter](#) | | |

We very much hope that you will enjoy your research in the School and that your time here is as academically successful and enjoyable as possible. Our aim is to create a genuine academic community for staff and postgraduate students. There are lots of opportunities for informal as well as formal contact, and we hope that you will make the most of them. These webpages are written by members of staff in the School to help you during your time here. New and updated information is added at regular intervals. If you have any comments on these webpages please contact Jo Pullen, Student Services Senior Administrator With best wishes

Dr Nicola Royan

Director of Graduate Studies
