How to move or customise the location of blocks

Moodle Help & Support
This refers to Moodle 2.7 from July 2015 onward

How to: move or customise the location of blocks

These instructions refer to blocks on the Module pages. See below for My Home pages.

- Click
  
  Turn editing on

- For the block you wish to move, click on the cross icon and hold the mouse button down

  ![Image of block in Moodle]

  - The mouse pointer changes to a cross
  - Drag and drop the block into the place you want. Other blocks will move to give room between them.
  - Ensure you can see a “ghost” of the block in the space you want

  ![Image of blocks in Moodle]

  - Let go of the mouse button
  - The block moves to the new location.

Moving blocks on My Home pages

The same procedure can be used to move and customise the location of blocks on your personal “My home” page.
• Click on the **Customise this page** button (top right)
• Move the blocks as shown above.
