How to enable resubmission of a Moodle assignment

Moodle Help & Support

For Moodle 3.2 from September 2017 onwards

How to enable resubmission of a Moodle assignment

When setting up the Moodle Assignment you can choose to allow students to resubmit.

You can set a cut-off date after which they can no longer resubmit.

See How to create an assignment

NORMALLY

A student can resubmit right up until the deadline, just by returning to the assignment.

How to delete a draft assignment in a Moodle assignment dropbox

Preventing resubmission right from the start using Submit for marking button

It is possible to add an extra step so that until the student clicks Submit for marking the assignment is not final.

### Submission settings

- **Require students click submit button**: Yes
- **Require that students accept the submission statement**: No
- **Attempts reopened**: Manually
- **Maximum attempts**: Unlimited

The Submit button will declare the submission final and the student will not be able to resubmit.

**Determines how student submission attempts are reopened. The available options are:**

- **Never** - The student submission cannot be reopened.
- **Manually** - The student submission can be reopened by a teacher.
- **Automatically until pass** - The student submission is automatically reopened until the student achieves the grade to pass value set in the Gradebook (Gradebook setup section) for this assignment.

### Group submission settings

### Notifications

Whether or not the SUBMIT button is enabled, the Editing Teacher can re-open the assignment for selected student(s) to allow resubmission if required.

The student:

- submits an assignment through Moodle
- checks it over and
- clicks Submit

Once the student has clicked this, s/he cannot now resubmit.

The Editing Teacher has access to reset this for individual students (provided that "Manually" is set in the settings, see screenshot above). To do
Goto your module.

Find the assignment and click on the assignment name.

- Click on the View all submissions hyperlink.
- Click on the Select box for the submission that needs to be amended (see illustration right).
- Below the table is a drop-down menu entitled With selected... click on Allow another attempt, then click on the Go button.

The student can then resubmit. Note: If late submissions are allowed, then resubmissions can also take place after the due date.

To prevent all students resubmitting

The "Lock submissions" option can be used at any point to prevent one, several or all students from further resubmission.
