How to generate an activity report for a student

Moodle Help & Support
This refers to Moodle 2.7 from July 2015 onward

How to generate an activity report for a student

See also How to see tracking information for students

Logs and activity reports for students allow you to find out:

- if and when a student has logged into your module
- an particular student's activity in your module
- the date and time that a student has accessed a particular resource or activity
- which students have participated in a particular activity (and whether they have simply viewed it or taken action)
- a student's current grade

To find out about an individual student:

1. Find the Administration block and click on Module administration > Users > Enrolled users
2. Click on the user's profile picture
3. In the User's profile page
4. Go, again, to the Administration block and click on Profile settings for (student's name) > Activity reports

5. Select a report option from the expanded list
   - Today's logs - timestamped list and graph representing the student's actions for the current day
   - All Logs - timestamped list and graph representing the student's actions for a series of days
   - Outline report - a breakdown of a student's current participation per Moodle activity
   - Complete report - a detailed list of a student's up-to-date interaction with all Moodle activities
   - Statistics -
     - Grade - shows student's current grade per activity
