Moodle Everywhere

This refers to Moodle 3.11 from August 2022 onwards

Moodle Everywhere

The University’s Teaching and Learning Committee has agreed a minimum threshold for engagement with Moodle which all modules must meet.

In addition to the use of Microsoft Teams and Engage (Echo 360) across the institution for teaching, the expectation is that all modules will continue to use Moodle as the hub for teaching materials, activities and resources. Please refer to the Moodle Everywhere document for further information.
