How to mark offline in Turnitin using an iPad/iPhone

Moodle Help & Support (Staff)

This refers to Moodle 3.6 from July 2019 onward.

Please note: To mark assignments submitted to a Turnitin dropbox in Moodle offline you need an iPad or an iPhone and the Turnitin app.

The app is NOT recommended where multiple markers are used to mark assignments.

This is because the app does not have any group filter functionality, and because it is possible to overwrite others' marking if careless.

Before using the iPad/iPhone

- On your desktop computer go to your module and click on the Turnitin assignment you wish to mark.
- Click on the blue pencil of any of the assignments to launch Feedback Studio.

- In Feedback Studio press the i button. This will launch a pop-up window.
- Enter your email address then enter it again to confirm.

- **Important - Make sure that you have the most recent version of Feedback Studio installed on the iPad. (Update it from the App Store)**
- You will receive a class link via email. From the email, select the 'Add class' button to add the class to the app.

Accessing submissions via your iPad/iPhone

- On your iPad ensure that you have *the most recent version* of the Turnitin app installed. Launch the app by clicking on the 'Add class' button from the email you were sent in the step outlined above.

- Tap the assignment you wish to access.

Marking assignments

- If you have downloaded the assignments then you do not need a network connection to mark. You can do this 'offline' if you wish.
- The marks and feedback will re-sync when you next have a network connection.
- Tap on the name of the student whose work you wish to mark to display the marking screen.
