How to clear your browser’s cache

Moodle Help & Support

Sometimes you may need to clear your browser’s cache to be able to see updated content more effectively.

One example of when you need to clear your cache is if your Turnitin page is not looking quite right (e.g., dates and similarity scores aren’t displaying correctly)

Further troubleshooting of browsers and systems

Here’s how to clear your cache

In Firefox

- On the Open menu (Hamburger icon in the top right) select ‘Options’
- Choose the ‘Advanced’ icon (left hand column)
- Select ‘Network’
- Under ‘Cached Web Content’ header click **Clear now**.
- Close the browser and reopen

In Internet Explorer

Click on the cogwheel icon (top right) and select ‘Internet Options’ from the drop-down menu

- Select the **General** tab
- Under Browsing history, click **Delete**.
- Un-check the ‘Preserve Favorites website data’ box.
- Check the ‘Temporary Internet files and website files’, ‘Cookies and website data’, and ‘History’ boxes.
- Click **Delete**. And then **OK**
- Close the Internet Explorer window and reopen.

In Chrome

1. On your computer, open **Chrome**.
2. At the top right, click More (or the three dots)
3. Click **Settings**
4. Scroll down and click **Advanced**
5. Under **Privacy and Security** click the arrow next to **Clear browsing data**
6. Next to “Cookies and other site data” and “Cached images and files,” check the boxes.
7. Click **Clear data**.
8. Log out of Moodle, close the browser and reopen and login again
