Workshop

- How to set up and use the Moodle Workshop
- How to add a Workshop to your module — This is a peer review and self-assessment activity that you could set up for some assignments.
- How to set up grading strategies in Workshop — This help document will guide you through setting up grading strategies for a Workshop activity.
- How to make your Workshop available to students — Students cannot see your Workshop activity unless you make it available to them by changing the phase. This document explains the phases of the Workshop.
- How to allocate assignments for peer and self-assessment in Workshop — If you’re using Workshop for either peer or self-assessment, or both, you will need to allocate the submitted assignments either manually or randomly. This help document will show you how to do both.
