How to create your own Turnitin QuickMarks set and export /import QuickMarks

Moodle Help & Support (Staff)

This refers to Moodle 3.8 from September 2020 onward.

This guidance shows how to create your own QuickMark set and QuickMarks.

Dependencies – This guidance presumes you know how to create and mark a Turnitin assignment.

Creating your own QuickMarks set

1. Click on the Turnitin assignment you wish to create your own QuickMarks for. Example:

2. This will load up the Turnitin page that contains the student’s assignments. Towards the right-hand side click on the 'Tickbox' icon.

3. A pop-up window will appear which is the ‘QuickMark Manager’ screen.

   There are three columns on this screen which are:

   a. "Sets" column displays all the QuickMark sets available to you.
   b. "Marks" column displays all the quickmarks within the set.
   c. The third column provides information such as what QuickMark set is active.
   d. The ‘Arrow’ icon enables you to import or export other QuickMark sets.

4. To create a new QuickMark set, press the '+' icon within the "Sets" column.
5. This will open up a small textbox window. Enter the name of what you want to call your QuickMarks set and press 'Save'.

6. You should now see your new QuickMark set within the "Sets" column. You will notice next to the name there is the number 0 on the right. This indicates that there are no QuickMarks in this set. Click on your QuickMark set to select it.

7. To create a brand new QuickMark press the '+' icon within the "Marks" column.

8. In the third column give your QuickMark a title that is short. Within the "Description" write an explanation about what your comment is about. When you are complete press 'Save'.
You will now see that in the "Sets" column there is the number 1 to indicate there is one QuickMark in there. Within the "Marks" column you will see the name of your new QuickMark.

Actions buttons

With the QuickMark selected within the "Marks" column you will see in the right-hand column there is an Actions button. If you press this then you will have the following options.

- 'Add to set' – Enables you to add this QuickMark to another set. This will make a copy of your QuickMark and place it in the set you choose.
- 'New set' – Enables the creation of a new set of QuickMarks
- 'Other' – There are two options available, 'Archive' and 'Remove from this set'. If you select 'Remove from this set' then the QuickMark will disappear from the set.
Add QuickMarks to different sets

If you wish to add existing QuickMarks that are in different sets:

1. Click on the set which contains the existing QuickMark.
2. Within the "Marks" column, click on QuickMark you wish to use.
3. In the third column press the "Actions" button and then press 'Add to set'.
4. Then from the list select the set you wish to add it to. This will create a copy of the QuickMark and not move the QuickMark from one set to another.

Making QuickMarks active

1. Once you have finished adding your QuickMarks to your set and are now ready to use it, press the set you wish to make active and then in the third column press the link Make this the active set.
Your set will now have a blue orb next to it to indicate this is the live set.

2. Next, press the 'Close' button in the top right of the screen. This will close the QM Manager and you will be returned to the Turnitin page that contains the student assignments.

3. Click on the 'Blue pencil' on a student's submission to load Feedback Studio.

4. In Feedback Studio the 'Tick' icon to bring up the QuickMarks menu. This will display the active QuickMark set. When you wish to use a QuickMark just drag one and drop it on the assignment where you want to put it.
5. If you wanted to select another QuickMark set you can do so by pressing the 'Downward arrow' next to the active set. This will then bring up the list of QuickMark sets to choose from.

How to export and import QuickMarks (Method 1)

Your QuickMark sets that you have created will be available to any module that you are able to mark on. However, you may wish to share your QuickMark set with colleagues or import a set you wish to use.

1. Press the 'Tickbox' icon in the Turnitin assignment page to launch the QuickMark Manager,

2. Within the QuickMark Manager pop-up window, choose the set you wish to export by clicking on it. Then press the 'Arrow' icon button on the top-right side. This will provide two options, select 'Export Set…'
3. Your computer should then prompt you to select where to save the QuickMark file (.qms). Locate where you want to save your QuickMark file and then press ‘Save’.

You can now email or store this file for a colleague to use.

**Import set**

1. To import a QuickMark set click on the 'Arrow' icon button on the top-right side. This will provide two options, select 'Import Set…'
2. This will bring up an import page, press 'Choose file'. Select the .qms QuickMark file from your computer and press 'Import'.
3. When the file has finished uploading you will see the words "Import complete" at the bottom and the 'Close' button will be clickable. Press 'Close'.

You will then be returned to the QuickMark Manager and you will see that the QuickMark set you imported can be found within the "Sets" column.

How to export and import QuickMarks (Method 2)

1. You can export QuickMarks via Feedback Studio. To do this go to Feedback Studio and press the 'QuickMark' button.
2. This will open up the QuickMark menu, press the 'Cogwheel' icon.
3. A Feedback Studio version of the QuickMark manager will load. Press the 'Menu' button with three lines located in the top-left of the screen. A drop down menu will then appear.

4. Press one of the QuickMark sets to select it then press Download Set. This will then prompt the download process similar to method 1 (above).

Upload set

To upload a set, follow steps 1-3 as above but rather than clicking on 'Download set' with a selected QuickMark set, press the 'Upload Set' button. This will load up the upload window, here you can either drag and drop a .QMS file or if you press Or browse then you can select one from your computer.
